The Surveyor is stationed at specific locations along the highway, where he/she will be responsible for counting the number of trucks passing through the weighbridges between 06h00 and 18h00 (This is a 12hour shift).

### Additional requirements for each surveyor:

- Fluent in English, additional languages are a bonus.
- Matric
- Reliable cellphone (the surveyor will need to download and make use of a custom developed mobile app; data will be provided).
- Able to report at a predefined location within the relevant town on the day of training (time to be confirmed, likely after 14:00)

### Additional information:

- Training, accommodation, breakfast, and lunch will be provided
- Temps will be responsible for their own dinner
- A lunch break will be allocated during the shift; however, surveyors will not be permitted to leave the site
- Each surveyor must have a smartphone to capture data (data/Wi-Fi will be provided)
- All candidates must have a matric qualification

**Salary Rate: R60 per hour**
